Establishment of Director Qualifications & Nomination Responsibilities.

The Committee is responsible for identifying, evaluating and recommending qualified candidates for election to the Board of Directors. To be considered for nomination to the Company's Board, each candidate must possess the following minimum qualifications and attributes: high personal values, judgment and integrity; an ability to understand the regulatory and policy environment in which the Company conducts its business; a demonstrated, significant engagement in one of the market areas served by the Company, based on one or more of the following within such market area—professional/business relationships, residence, and involvement with civic, cultural or charitable organizations; and experience which demonstrates an ability to deal with the key business, financial and management challenges that face financial service companies.

In assessing candidates, the Committee shall consider the above-described criteria, and shall also evaluate the candidate's: ability to understand, and willingness to engage, the issues presented to the Board; ability to exercise prudence and judgment, but also decisiveness; and ability to effectively communicate their ideas to the other members of the Board. In the case of incumbent Directors, these assessments are made based on past experience with a particular Director and, in the case of first-time nominees, these issues are explored during the interview and vetting process described below.

At least annually, and typically on a more frequent basis, the Committee shall engage in a discussion to identify candidates who fulfill the criteria described above. The Committee will also evaluate candidates who are identified by shareholders, by other members of the Board, and occasionally by members of the Company's leadership team. In identifying potential nominees, the Committee shall also consider whether a particular candidate adds to the depth and variety of skills and professional experiences of the Board. The Committee shall seek nominees with a wide range of experience, including those with different skills, professions and perspectives, and who represent the local communities in which the Company operates. The Committee is responsible for ensuring that all interested or recommended candidates are included in the candidate pool from

which director nominees are selected. The Committee shall accomplish this by encouraging its directors to identify all qualified candidates for service on the Board, and emphasizing the importance of developing and maintaining a board culture which is welcoming to directors of all backgrounds. The Committee seeks nominees from a variety of backgrounds, including recruiting candidates beyond the traditional corporate/banking arena, and for example, recruiting qualified candidates who work in non-profit organizations, in addition to candidates with traditional “corporate” backgrounds. At least annually, the Committee shall monitor the composition of the Board to ensure it reflects a wide range of different areas of expertise, professions, perspectives, and geographic representation.

Outside Advisors

The committee shall have the authority to retain such outside counsel, experts, and other advisors as it determines appropriate to assist it in the full performance of its functions.

Meetings

The committee shall meet at least annually, either in person or telephonically, and at such times and places as the committee shall determine. The committee shall make regular reports to the Board on its activities. These reports will generally occur after each committee meeting or at such other times as the committee deems appropriate.
